GeoWorks

# The power of "where" and location intelligence

Are you an innovative GeoTech?
Are you seeking to expand your geospatial business's horizons?

Connect with us.

Established in 2018, GeoWorks is Singapore's geospatial industry centre, operated by the Singapore Land Authority with a mission to facilitate the growth of the burgeoning geospatial industry in ASEAN and beyond.

We are building an international GeoCommunity. **Innovate with us.**

Innovate with us.

Be part of the GeoWorks Community

Why Partner Us?

GeoWorks' programmes aim to:

1. Promote Business Growth
– Advance the use of geospatial in sector users through awareness and marketing programmes.
– Facilitate the establishment of local and global geospatial companies.

2. Drive Innovation
– Develop programmes to encourage innovative solutions to address challenges by sector users.
– Support development of emerging technology solutions by innovators through the sharing of expertise and resources.

3. Foster a Well-Connected Community
– Connect diverse stakeholders to align common interests through events and programmes.

If your company is in these area(s), we would like to hear from you:

Geospatial Data Science and Analytics
Artificial Intelligence and Machine Learning
GIS Software and Services
Geospatial Consulting Services
Spatial Analytics / Geospatial Analysis
Model, Simulate and Predict

Sensing, Surveying and Mapping
Mobile Mapping
Photogrammetry
Remote Surveys
Aerial Photography
Surveying
Light Detection and Ranging (LiDAR)
Synthetic Aperture Radar
Remote Sensing and Satellite
Drones
Sensors
IoT
Indoor Mapping
Crowdsourcing / Volunteered Geographic Information (VGI)

Model Interoperability
BIM Integration
IoT Integration
Ontology Development
Positioning Technologies
Precise Positioning
GNSS / GPS
Indoor Positioning

Information Technology
5G
Blockchain
Geo IT Ethics
Data Security

Spatial Data on the Web
Web APIs
Web Scale Platforms

Geospatial Visualisation and Modelling Tools
Software
Modelling and Visualisation
AR / VR
Digital Twin Technologies
Geo Visualisation and Graphics

Geospatial Applications
Real Estate
New Retail
Logistics

Autonomous Vehicles
Unmanned Aerial Vehicles
Connected Autonomous Vehicles
Creation of High Definition Maps for AV
Robotics

GeoWorks

Programme

GeoInnovation Programme
Under the GeoWorks GeoInnovation programme, GeoWorks houses local and international geospatial scale-ups from different industry segments at its facility.

Join the GeoCommunity
Contact us at: GeoWorks@sla.gov.sg

GeoWorks Community

GeoTech: Geospatial startups and scale-ups enrolled in the GeoInnovation Programme facilitated by GeoWorks.

GeoPartner: Geospatial content, solutions and service providers.

GeoAffiliate: Organisations that help create a vibrant geospatial community across various industries and specialisations.

GeoMember: General members of the GeoWorks Community, who are directly or indirectly linked to the geospatial industry.

Business Matchmaking and Networking Benefits

– Training, workshops and community events
– GeoMarketplaces
– GeoChallenges
– Joint innovation projects
– Access to geospatial datasets
– Network with like-minded community
  members

Singapore Geospatial Festival

The Singapore Geospatial Festival is GeoWorks' annual celebration of all things geospatial comprising lightning talks, mapathons, workshops, GeoMarketplace and more. Singapore Geospatial Festival brings the international geospatial community (public and private sectors as well as the community-at-large) together for co-located activities promoting the use of GPS/location-based and mapping innovation.
